DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 42-81 are rejected under 35 U.S.C. 102(b) as being anticipated by Mason et al #6,036,603. Mason et al discloses a wave sculpture comprising a flow surface 20; a platform or walkway 16 including a support 18; a reservoir of water 30; at least one water injector (generally shown at 40), the water injector including a pump and nozzle to provide flow of water onto the flow surface and to substantially conform to the flow surface such that the flow of water follows a path up and around the semi-cylinder 14, thus simulating a wave form. The flow surface includes upwardly, horizontally, and downwardly inclined portions, wherein the walkway is disposed adjacent the upwardly and downwardly inclined portions and the horizontal portion is disposed above the walkway. Such wave sculpture is used for entertainment and aesthetic purposes associated with theme parks and associated with building, therefore, such sculpture can be used as an awning for a building. Furthermore, Mason et al discloses the method for creating a walkthrough water sculpture, including: providing a flow surface; providing a walkway; providing a reservoir of water; and directing water from the reservoir onto the flow surface as broadly recited.

Allowable Subject Matter

3. Claims 1-8, 10-18, and 20-39 are allowed.
